Introduction

Danfoss's FT1355 and FT1455 series projectile cleaning systems, and the FT1555 series CapSeal system are new additions to Danfoss's family of hose assembly equipment focused on eliminating contamination in hydraulic systems. Contamination control is crucial during the preparation processes in assembling fittings on hose, tubes, and pipes.

The FT1355 and FT1455 series projectile cleaning systems offer industry leading contamination control during hose assembly preparation. The FT1455 series projectile cleaning system is available in both a hand-held and bench mount configuration. These systems shoot the FT1355 series cleaning projectiles though hose, tubes, and pipe assemblies. The FT1455 and FT1355 series projectile cleaning systems successfully remove rubber dust and metal particles arising from the hydraulic hose cutting process, remove metal flashings from the hose assembly process (crimping), and remove contaminated oil from hoses, tubes and pipes prior to installation in hydraulics systems.

In industry standard contamination measurement tests, the FT1355 and FT1455 series projectile cleaning systems yielded an industry leading cleanliness level of 13 to 18 (less than 2,500 ppml) in the 4μ to 14μ contaminant range.*

The FT1555 CapSeal system is intended to be used in conjunction with the FT1355 and FT1455 series projectile cleaning systems to prevent recontamination of hose, tube, and pipe assemblies. The FT1555 CapSeal system utilizes heat shrink technology to encapsulate the end of a hose or tube assembly with an FT1555 CapSeal capsule. Traditional capping and plugging methods increase the possibility of recontamination when ill-fitting caps and plugs are forced onto fittings, causing plastic particles to shear off, therefore contaminating a hose or tube assembly. Additionally, traditional capping and plugging methods require the exposed caps and plugs to be decontaminated prior to installation to minimize recontamination. The FT1555 CapSeal system eliminates recontamination issues, and provided a tightly sealed contaminant free assembly. The FT1555 system is also more user friendly during the capping and uncapping process versus using the traditional styles of caps and plugs.

Danfoss's FT1555 series CapSeal system is available in both bench mount and hand-held options. The FT1555 capsules are also designed to encapsulate a broad variety of hose fittings and adapters with a minimal number of capsule sizes resulting in an overall less expensive capping solution.

Typical applications for Danfoss's FT1355 and FT1455 series projectile cleaning systems, and the FT1555 series CapSeal system are outlined in the next section.

* ISO 4406:99 and ISO 4405 tests

FT1455 Series

Projectile cleaning system

FT1455 Series projectile cleaning system

FT1455 Series is focused on eliminating contamination in hydraulic systems. Contamination control is crucial during the preparation processes in assembling fittings on hose, tubes, and pipes. These systems shoot the FT1355 Series cleaning projectiles through hose, tubes, and pipe assemblies to successfully remove rubber dust and metal particles arising from the hydraulic hose cutting process, remove metal flashings from the hose assembly process (crimping), and remove contaminated oil from hoses, tubes and pipes prior to installation in hydraulics systems.

Features

- Provides industry leading ISO cleanliness levels
- Simple and robust construction
- Available in hand-held and bench-mount configurations
- Ideal for portable small volume applications, and large volume production applications
- Broad variety of projectile and nozzle types and sizes to match application needs
- Minimal setup, works off shop air (80–110 psi)
- Capability: 1/8" to 4 1/2" ID hose, tube or pipe
- Available in kits or individual replacement hardware components
- Kits available with and without projectiles

Typical applications			
Hydraulics	Removes rubber dust and metal particles from the hydraulic hose cutting process		
	• Removes metal flash from the crimping process on hose and tubes		
	• Removal of contaminated oil from hoses, tubes and pipes in hydraulic systems		
Pneumatics	 Eliminates rubber contamination, metal particles, contaminated oil and moisture that causes breakdowns and inefficiency 		
Heat exchangers & condenser	Eliminates contamination that reduces heat transfer resulting in low level performance		
Steam boilers	Removes most scaling in steam pipes for maintenance servicing		
Air conditioning & refrigeration	• Eliminates minute particles in copper tubes and coolant lines that affect system performance		
Oxygen & gas	• Eliminates oil, grease and other contaminants from copper or S/S tubing		
Oil, gas & chemical processing	Efficient cleaning of pipes as part of service maintenance		
Earthmoving equipment	Maintenance reduction in flushing time and filter usage		
Automotive & servicing	Cleaning of fuel lines and brake lines prior to assembly and servicing of components		
Food & beverage	Product recovery retrieval of product from lines. Reducing or eliminating solvents or detergents		
Gun barrels	To remove rust, scale or powder residue much faster than brushing or swabbing		

FT1455 Series

Hardware

NOTE: For proper operation the following are required:

- 80 psi (5.5 Bar) minimum to 110 psi (7.5 Bar) maximum air pressure
- 1/2" ID air hose with a minimum of 55 SCFM $(1.6 \text{ m}^3/\text{min})$ air flow rate†

FT1455-L1

Hand held projectile cleaning hardware for small hose diameters (up to 1-1/4 " hose ID)

- Capability For use with 1/8" through 1-1/4" ID hose, tube or pipe assemblies
- Construction Simple construction with durable brass and aluminum parts with rigid plastic handle
- Form factor Hand-held, portable ideal for mobile applications
- Typical applications: small volume hose shop environments
- Includes hand-held launcher hardware only. Does not include adapter rings and nozzles for operation. Intended for replacement purposes only

FT1455-L2

Hand held projectile cleaning hardware for medium hose diameters (up to 2" hose ID)

- Capability For use with 1/8" through
 2" ID hose, tube or pipe assemblies
- Construction Precision machined aluminum with fully anodized components
- Form factor Hand-held, portable ideal for harsh environments and heavy
- Typical applications: Production hose and tube shops, mobile hose fabricators and mobile applications
- Includes hand-held launcher hardware only. Does not include adapter rings and nozzles for operation. Intended for replacement purposes only

FT1455-L3

Hand held projectile cleaning hardware for large hose diameters (up to 3-1/2" hose ID)*

- Capability For use with 1/8" through 3-1/2" ID hose, tube or pipe assemblies
- Construction Precision machined aluminum with fully anodized components
- Form factor Hand-held, portable ideal for harsh environments and heavy use
- Typical applications: Production hose and tube shops, mobile hose fabricators and mobile applications
- Includes hand-held launcher hardware only. Does not include adapter rings and nozzles for operation. Intended for replacement purposes only

FT1455-L4

Bench mount projectile cleaning hardware kit for small hose diameters (up to 1-1/4" hose ID)*

- Capability For use with 1/8" through 1-1/4" ID hose, tube or pipe assemblies
- Construction Stainless steel housing with anodized aluminum components
- Form factor Bench mount ideal for production assemblies (1.2 second cycle time)
- 5 micron air filter and regulator with gauge are strongly suggested
- A large industrial compressor is strongly recommended
- A compressed air dryer is strongly recommended

- Typical applications: Production hose and tube shops
- Includes bench mount launcher hardware, 5 micron air filter, pneumatic foot switch and twin line air hose and 7 nozzles for hose ID ranging from 1/4" through 1-1/4"

†A minimum of 38 SCFM (1.1 m³/min) air flow rate at 80 psi (5.5 bar) is required for FT1455-L3 launcher

*FT1455-L3 can be converted to work on hose ID up to 4" with the addition of FT1455-N-45 4-1/2" aluminum locking nozzle.

FT1455 series

Projectile cleaning system kit

FT1455-K3

Hand held projectile cleaning kit for medium hose diameters (up to 2" hose ID)

- Capability For use with 1/4" through 2" ID hose, tube or pipe assemblies
- Construction Precision machined aluminum with fully anodized components
- Form factor Hand-held, portable ideal for harsh environments and heavy use
- Typical applications Production hose and tube shops, mobile hose fabricators and mobile applications

FT1455 series

Cleaning nozzles

FT1455-N-HXX Nozzles for hose assemblies

- Universal nozzle for use with hoses
- Also work on pipe, heavy walled tubing and many fitting configurations

Broad variety of nozzles are available allowing the operator to select the ideal nozzle for each application based on the different size and type of hoses, hose fittings, tube and pipe assemblies. All nozzle sizes are denoted by the projectile exit diameter (mm).

FT1455-N-HXX nozzles		
Part #	Description	
FT1455-N-HXX	Nozzles for hose assemblies	
FT1455-N-H06	Hose nozzle (1/4")	
FT1455-N-H08	Hose nozzle (5/16")	
FT1455-N-H10	Hose nozzle (3/8")	
FT1455-N-H13	Hose nozzle (1/2")	
FT1455-N-H16	Hose nozzle (5/8")	
FT1455-N-H19	Hose nozzle (3/4")	
FT1455-N-H25	Hose nozzle (1")	
FT1455-N-H32	Hose nozzle (1-1/4")	
FT1455-N-H38	Hose nozzle (1-1/2")	
FT1455-N-H50	Hose nozzle (2")	
FT1455-N-U55	Universal hose nozzle (1-1/8" thru 3-1/2")	
FT1455-N-45	4-1/2" aluminum locking nozzle	

FT1455-J-XX Nozzles for hose assemblies with JIC fittings

• Nozzles molded with 37° male flare on tip to fit female JIC fittings on hose assemblies

FT1455-J-XX nozzles		
FT1455-J-XX	Nozzles for tube assemblies (Metric) Outside diameter X wall thickness	
FT1455-J-06	JIC nozzle (4-1/2")	
FT1455-J-10	JIC nozzle (4-1/2")	
FT1455-J-13	JIC/TUBE nozzle (-8, 1/2")	
FT1455-J-16	JIC/TUBE nozzle (-10, 5/8")	
FT1455-J-19	JIC/TUBE nozzle (-12, 3/4")	
FT1455-J-25	JIC/TUBE nozzle (-16, 1" & 7/8")	
FT1455-J-32	JIC/TUBE nozzle (-20, 1-1/4" & 1")	
FT1455-J-38	JIC/TUBE nozzle (-24, 1-1/2")	
FT1455-J-50	JIC/TUBE nozzle (-32, 2")	

FT1455 series (cont.)

Cleaning nozzles

Broad variety of nozzles are available allowing the operator to select the ideal nozzle for each application based on the different size and type of hoses, hose fittings, tube and pipe assemblies. All nozzle sizes are denoted by the projectile exit diameter (mm).

FT1455-NT-XX Nozzles for tube assemblies (Inch)

• Nominal inch tube nozzles have a lip on the inside that forms an airtight seal when tube is fully inserted into the nozzle

FT1455-NT-XX nozzles		
FT1455-NT-XX	Nozzles for tube assemblies (Inch)	
FT1455-NT-32	TUBE nozzle 1-1/4" OD	
FT1455-NT-06	TUBE nozzle 1/4" OD	
FT1455-NT-03	TUBE nozzle 1/8" OD	
FT1455-NT-10	TUBE nozzle 3/8" OD	
FT1455-NT-08	TUBE nozzle 5/16" OD	

FT1455-NT-XXXXX Nozzles for tube assemblies (Metric)

- Metric tube nozzles have a lip on the inside that forms an airtight seal when tube is fully inserted into the nozzle
- Metric tube nozzle designations utilize the largest wall thickness for a given outside diameter, but fit all smaller wall thicknesses as well

FT1455-NT-XXXXX nozzles			
FT1455-NT-XX	Nozzles for tube assemblies (Metric) Outside diameter X wall thickness		
FT1455-NT-06x1.5	Metric tube nozzle UC-6 X 1.5		
FT1455-NT-08x1.5	Metric tube nozzle UC-8 X 1.5		
FT1455-NT-10x1.5	Metric tube nozzle UC-10 X 1.5		
FT1455-NT-12x2.0	Metric tube nozzle UC-12 X 2.0		
FT1455-NT-14x2.0	Metric tube nozzle UC-14 X 2.0		
FT1455-NT-15x2.0	Metric tube nozzle UC-15 X 2.0		
FT1455-NT-16x2.5	Metric tube nozzle UC-16 X 2.5		
FT1455-NT-18x2.5	Metric tube nozzle UC-18 X 2.5		
FT1455-NT-20x3.0	Metric tube nozzle UC-20 X 3.0		
FT1455-NT-22x2.0	Metric tube nozzle UC-22 X 2.0		
FT1455-NT-25x3.0	Metric tube nozzle UC-25 X 3.0		
FT1455-NT-28x2.5	Metric tube nozzle UC-28 X 2.5		
FT1455-NT-30x4.0	Metric tube nozzle UC-30 X 4.0		
FT1455-NT-35x3.0	Metric tube nozzle UC-35 X 3.0		
FT1455-NT-38x5.0	Metric tube nozzle UC-38 X 5.0		
FT1455-NT-42x3.0	Metric tube nozzle UC-42 X 3.0		
FT1455-NT-50x5.0	Metric tube nozzle UC-50 X 5.0		
FT1455-4FFORX	Nozzle for use with flat face O-Ring seal fittings (FORS)		

FT1455 series

Adapter & locking rings

FT1455-L2-AR1 Adapter ring

Adapter ring for FT1455-L2 launcher to receive 1/8" thru 1-1/4" nozzles

• FT1455-L2-AR1 adapter ring fits the FT1455-L2 hand held launcher and all nozzle types and sizes between 1/8" and 1-1/4"

FT1455-L3-AR2 Adapter ring

Adapter ring for FT1455-L3 launcher to receive 1/8" thru 1-1/4" nozzles

• FT1455-L3-AR2 adapter ring fits the FT1455-L3 hand held launcher and all nozzle types and sizes between 1/8" and 1-1/4"

FT1455-L3-LR Locking ring

3-1/2" aluminum locking ring for FT1455-L3 launcher FT1455-L3-LR locking ring fits

• FT1455-L3 hand held launcher, both FT1455-L3-AR2 & FT1455-L3-AR3 adapter rings, and FT1455-N-U55 Universal hose nozzle

FT1455-L3-AR3 Adapter ring

Adapter ring for FT1455-L3 launcher to receive 1-1/2" thru 2" nozzles

• FT1455-L3-AR3 adapter ring fits the FT1455-L3 hand held launcher and all nozzel types and sizes between 1-1/2" and 2".

FT1455 series

Accessories

FT1455-NH25 Desktop nozzle holder

The desktop nozzle holder is a great alternative to storing the nozzles in the carrying case

- Can be easily attached to the workbench and offers easy access during change overs and operation
- Accommodates all types of nozzles ranging from 1/4" to 2"

FT1455-QC Quick release coupling

- Quick release coupling offers a quick disconnect and exchange of air supply to all three models of hand held projectile launchers
- Ideal for portable applications that require frequent disconnects

FT1455-CC Carrying case

- Convenient carrying case to store and carry the hand held projectile launchers and relevant nozzles
- Works will all 3 models of hand held projectile launchers

FT1355 series

Cleaning projectiles for hose, tube and pipe assemblies

FT1355 cleaning projectiles work by being compressed against the internal surface of the hose, tube or pipe. Cleaning projectile selection should favor a diameter 20% to 30% larger than the internal diameter of the hose, tube of pipe being cleaned.

Projectiles are available in 3 variations as outlined below, and are manufactured from virgin materials with a specific cell structure and density to match the application's needs. Appropriate selection of the cleaning projectile based on the type of application ensures effective cleaning.

FT1355-H-XX Hose cleaning projectiles for hose assemblies

- Universal cleaning projectile for use with hose, tube and pipe assemblies
- Removes fine particles of loose contaminants after cutting operations
- Can also be used for product purging prior to assembly

FT1355 series

Cleaning projectiles for tube and pipe assemblies

FT1355-A-XX Abrasive cleaning projectiles for tube and pipe assemblies

- For use with tubes or pipe assemblies
- Removes mild to medium amounts of contaminants including surface rust and scale build-up
- Can be used multiple times

FT13555-A-XX abrasive cleaning projectiles for tube and pipe assemblies					
Part #	Description				
FT1355-A-06	Abrasive cleaning projectile (6mm)

FT1355-T-XX Tube cleaning projectiles for tube and pipe assemblies

- Cleaning projectiles for use with tube and pipe assemblies
- Removes mild to medium amounts of contaminants including surface rust and scale build-up
- Removes mandrel lubricants, grease and other oils typically used in bending processes
- Strongly recommended for cleaning stainless steel tubes

FT1355-T-XX tube cleaning projectiles for tube assemblies					
Part #	Description

FT1355-H-85	10	3" (-48)	
FT1355-H-100	10	3-1/2" (-64)	

NOTE: *Use the larger projectile size for maximum cleaning on hose cut with an abrasive wheel

FT1555 CapSeal system

FT1555 Series CapSeal system

The FT1555 CapSeal system is intended to be used in conjunction with the FT1355 and FT1455 series projectile cleaning systems to prevent recontamination of hose, tube, and pipe assemblies. The FT1555 CapSeal system utilizes heat shrink technology to encapsulate the end of a hose or tube assembly with an FT1555 CapSeal capsule.

Features

- Provides industry leading ISO cleanliness levels
- Robust construction for use in heavy duty applications
- Available in hand-held and bench-mount configurations
- Ideal for portable small volume applications, and large volume production applications
- Optimum CapSeal capsule design to meet a broad variety of applications
- Minimal setup
- Capability: 3/8" (10mm) to 3" (78mm OD) hose and fitting ends
- Available in kits or individual replacement hardware components
- Kits available with and without Capseal capsule

Capsule shrink time for CapSeal Systems at multiple intervals										
Machine warm-up time from cold start (minutes)	1	2	3	4	5	6	7	8	9	10
Machine	Seal time	(seconds)								
FT1555-BM230 Daufous	3.5	2.5	2	1.5	1.25	1	1	0.75	0.75	0.75
FT1555-BM120	17	10	4.5	3.25	2.5	2.25	2	1.75	1.5	1.5
FT1555-HH	10	12	6	4	3	3	2.5	2	1.75	1.75

FT1555 CapSeal system

Hardware

FT1555-HH Hand held electric heat gun

- Variable temperature electronic heat gun with electronic thermocouple control.
- Duratherm heating element ensure long life and even heat temperature range of 120°F (49°C) to 1100°F (593°C) and a builtin cool down switch.
- Capable of sealing multiple hoses simultaneously.
- Operates on 120V AC power, draws 1500 watts, and can produce 17.6CFM.
- Cool down switch renders gun immediately cool-to-the-touch.

FT1555-BM120

120v Ak hand held heat gun with air knife

- A cradle holds and locks the 120V heat gun into place for bench top shrinking of capsules.
- The heat gun can be easily removed from the cradle for remote capsule shrinking.
- Magnetic puck holds the capsule onto the fitting for a perfect seal during the shrinking process.
- Magnetic puck pulls the swivel nut forward on 90° and 45° fittings for easy insertion into the air knife for capsule shrinking.
- Air knife has heat guard and large 110mm center opening that can be accessed from either side.
- Can seal single or multiple hose or tube assemblies.
- CapSeal capsules will seal hose or tube fitting from 3/8"OD (10mm) through 3"OD (78mm).

FT1555-BM230

CapSeal system with air knife

- Enables sealing of single or multiple hose or tube assemblies at one time.
- Magnetic puck holds capsule onto carbon steel fitting for a perfect seal during sealing process.
- Magnetic puck holds the nut forward on 90° and 45° fittings for easy insertion into the air knife.
- Air knife has heat guard and large 110 mm center opening accessible from either side.
- Capsules fit and seal hose and tube fittings from 3/8" OD (10mm) through 3" OD (78mm).
- 230v single-phase AC power at 50/60Hz draws < 5 amps.

- ON/OFF rocker switch illuminates green when "on."
- Built in external air filter minimizes heat gun clogging and maintenance, increasing heat gun longevity.
- \bullet Heat side of machine is fully insulated.
- Dedicated air filter prevents airborne contamination during sealing.
- Please note that a L6 -15 NEMA twist loc receptacle (not supplied) is required for operation.
- Durable, long-lasting brushless motor for high-volume production environments.

FT1555 CapSeal system

Kits

FT1555-HH-K1

Hand held electric heat gun basic kit

- Typical applications Hose shops and mobile hose fabricators
- Capsules fit and seal hose and tube fittings from 3/8" OD (10mm) through 3" OD (78mm)

FT1555-HH-K1 kit includes

- FT1555-HH heat gun and air knife with 1 ½" connection
- FT1555-SMP small magnetic puck
- FT1555-LMP large magnetic puck

FT1555-HH-K2

Hand held electric heat gun starter kit

- Typical applications Hose shops and mobile hose fabricators
- Capsules fit and seal hose and tube fittings from .55" OD (14mm) through 1.73" OD (44mm)

FT1555-HH-K1 kit includes in addition to contents of FT1555-HH-K1 kit

- FT1555-1824UP CapSeal Capsules 18mm x 24mm (ID x LNGTH)
- FT1555-2030UP CapSeal Capsules 20mm x 30mm (ID x LNGTH)
- FT1555-2540UP CapSeal Capsules 25mm x 40mm (ID x LNGTH)
- FT1555-2840UP CapSeal Capsules 28mm x 40mm (ID x LNGTH)
- FT1555-3140UP CapSeal Capsules 31mm x 40mm (ID x LNGTH)
- FT1555-3440UP CapSeal Capsules 34mm x 40mm (ID x LNGTH)
- FT1555-3840UP CapSeal Capsules 38mm x 40mm (ID x LNGTH)
- FT1555-4650UP CapSeal Capsules 46mm x 50mm (ID x LNGTH)

FT1555-HH-K3

Hand held electric heat gun premium starter kit

- Typical applications Hose shops and mobile hose fabricators
- Capsules fit and seal hose and tube fittings from .55" OD (14mm) through 3.07" OD (78mm)

FT1555-HH-K3 kit includes in addition to contents of FT1555-HH-K1 kit

- FT1555-1824UP CapSeal Capsules 18mm x 24mm (ID x LNGTH)
- FT1555-2030UP CapSeal Capsules 20mm x 30mm (ID x LNGTH)
- FT1555-2540UP CapSeal Capsules 25mm x 40mm (ID x LNGTH)
- FT1555-2840UP CapSeal Capsules 28mm x 40mm (ID x LNGTH)
- FT1555-3140UP CapSeal Capsules 31mm x 40mm (ID x LNGTH)
- FT1555-3440UP CapSeal Capsules 34mm x 40mm (ID x LNGTH)
- FT1555-3840UP CapSeal Capsules 38mm x 40mm (ID x LNGTH)
- FT1555-4650UP CapSeal Capsules 46mm x 50mm (ID x LNGTH)
- FT1555-5260UP CapSeal Capsules 52mm x 60mm (ID x LNGTH)
- FT1555-5860UP CapSeal Capsules 58mm x 60mm (ID x LNGTH)
- FT1555-6760UP CapSeal Capsules 67mm x 60mm (ID x LNGTH)
- FT1555-8060UP CapSeal Capsules 80mm x 60mm (ID x LNGTH)

FT1555 CapSeal system

Capsules

FT1555 CapSeal capsules eliminate contamination by forming a clean and secure seal around hose and tube ends. FT1555 CapSeal system eliminates the need to stock multiple plastic threaded caps with just 19 CapSeal capsule sizes to meet all type of hose and tube end configurations.

Additionally, the quick and easy pull-off tab on each capsule eliminates the need for additional tools that could further contaminate the assemblies.

FT1555 CapSeal capsules are available in 19 sizes of varying diameter and length to match needs of all assemblies, and are available in both unit packaged and bulk packaged packaging.

Unit packaged CapSeal packages		Bulk packaged CapSeal packages	CapSeal capsule size	Hex sizes covered		Fitting		
CapSeal part #		CapSeal part #	Packaged quantity	(mm, ID X length)	(mm)	(Inches)	Straight	Elbow*
FT1555-1424UP	960	FT1555-1424BP	12,320	14x24	10mm to 13mm	.39" to .51"	Х	X
FT1555-1624UP	840	FT1555-1624BP	9,000	16x24	12mm to 15mm	.47" to .59"	X	X
FT1555-1824UP	840	FT1555-1824BP	7,360	18x24	14mm to 17mm	.55" to .67"	X	X

^{*} Shorter length CapSeal capsules are recommended for elbow and angled fittings (45° and 90°)

FT1555 CapSeal system

Accessories

FT1555-HH-AK15

1-1/2" connection

- 110mm air knife to shrink CapSeal capsules
- Accommodates all CapSeal capsules

FT1555-HH-AK20

2" connection

- 110mm air knife to shrink CapSeal capsules
- Accommodates all CapSeal capsules

Magnetic puck

FT1555-LMP- Large magnetic puck FT1555-SMP- Small magnetic puck

Magnetic puck pulls nut forward on hose or tube assemblies to allow proper sealing while being placed in air knife.

EC declaration of conformity

EC DECLARATION OF CONFORMITY FOR MACHINERY Directive 73/23/EEC, 89/336/EEC

Manufacturer: Ultraclean Technologies Corp. Address: 746 Shiloh Pike, Bridgeton NJ 08302, USA

Herewith declares that the Clean Seal System Heat Shrink Machine Model: **UC-CSS-230**, production year 2010 is in conformity with the requirements of the Machinery Directive 73/23/EEC, 89/336/EEC

Bridgeton, NJ 08302 USA, October 2010

Mark of Conformity \bigcirc

About

Danfoss Power Solutions

Danfoss Power Solutions is a global manufacturer and supplier of high-quality hydraulic and electric components. We specialize in providing state-of-the-art technology and solutions that excel in the harsh operating conditions of the mobile off-highway market as well as the marine sector. Building on our extensive applications expertise, we work closely with you to ensure exceptional performance for a broad range of applications. We help you and other customers around the world speed up system development, reduce costs and bring vehicles and vessels to market faster.

We offer you expert worldwide support for ensuring the best possible solutions for outstanding performance. And with an extensive network of Global Service Partners, we also provide you with comprehensive global service for all of our components.

Danfoss Power Solutions – your strongest partner in mobile hydraulics and mobile electrification.

Products we offer:

- · Weatherhead by Danfoss
- · Boston by Danfoss
- DCV directional control valves
- Electric converters
- Electric machines
- Electric motors
- Hydrostatic motors
- Hydrostatic pumps
- Orbital motors

- PLUS+1® controllers
- PLUS+1® displays
- PLUS+1® joysticks and pedals
- PLUS+1® operator interfaces
- PLUS+1® sensors
- PLUS+1® software services, support and training
- PLUS+1® software
- Position controls and sensors

- · PVG proportional valves
- · SEL by Danfoss
- Steering components and systems
- Synflex Optimum by Danfoss
- Telematics
- Weatherhead by Danfoss
- Winner by Danfoss
